

## About us.

- It's easy to think about poverty as a international crisis that is bigger than you, but there are actually lots of things you can do to influence this systemic problem right in your own community...
- PAAT works to help fight poverty and we've outlined some proposals of how we can help to demolish poverty in our community

No-one has ever  
become poor by giving

PAAT

## Our missions

- To build a nation where both the extremes of our society, the 'haves' and the 'have-nots' work together to make a beautiful world to live in.
- To emerge as a platform for the three stakeholders to meet and work together – Corporates, Volunteers and NGOs.

## Our proposals

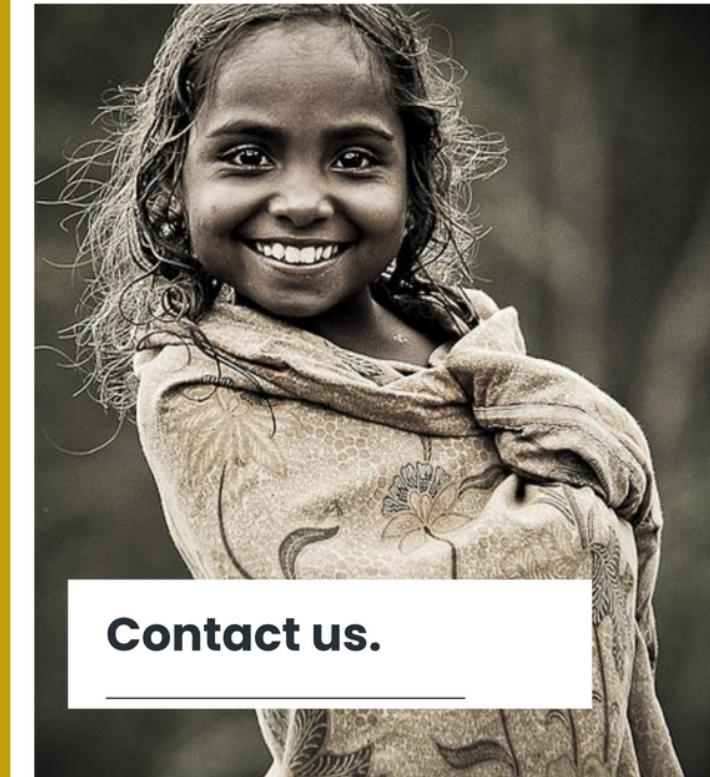

Raise Awareness

Create Jobs

Donate Funds
